The DREAM Act is the first good step towards reforming the broken immigration system that traps hard-working, tax-paying immigrants in the shadows of society. Our broken immigration system does not allow U.S.-raised immigrant students to adjust their status and to realize their dreams of an education.

Time is running out for thousands of highly motivated, energetic students who want nothing else but to go to school and contribute to our country. Immigrant students cannot continue to defer their dreams any longer.

Sign the DREAM Act today!
